

Seventh generation - Design and model variants

10/11/2024 The designers refined the sports car icon visually compared to its predecessor.

The designers refined the sports car icon visually compared to its predecessor. The most eye-catching feature became the newly designed, flatter-looking LED tail lights and an altered front bumper with bigger air intakes. The front appears wider than that of its predecessor.

Model variants

Coupé, Targa, Cabriolet plus 16 different performance levels over the entire production period, as well as rear-wheel or all-wheel drive: with the 991, Porsche offered a very wide range of models. The power output alone ranged from 350 PS to 700 PS.
