Porsche 911 Turbo S

11/06/2026 Cars

In 1998, Porsche Exclusive built 345 cars from the 911 Turbo S series. The output of the turbo engine was increased to 450 PS with a power kit. The body was given redesigned front and rear spoilers. Small openings in the front section improved the cooling of the brakes. An additional 959-style air vent was integrated in the rear side panels. The sport chassis was lowered by 15 millimetres. The four exhaust tailpipes and the brake calipers painted in Speed Yellow were also striking. Carbon parts were used in the interior.

Specifications

Model Year	1998
Engine	6-Cyl. Boxer
Displacement	3600 ccm
Power Output	331 kW (450 HP)
Top Speed	300 km/h
